Why choose Triad?

Triad has the knowledge and expertise to create video/audio systems that deliver images and sounds to the eyes and ears of your audience. This can be for virtual audiences or live in-person audiences of any size, in any space. Some spaces require permanent solutions; other events or spaces require a temporary rental solution. Triad will provide operators and/or training to be sure that the systems meet your requirements.

Experience

Multiple years of experience participating in meetings of every kind (from corporate meetings, church services, group performances and more recently virtual meetings), allow us to design that permanent or temporary system that works best for your situation.
